SHORT BIO

The Skeeters are hard-driving country music boot-stompers forged in Alabama honky-tonks, Texas dance halls and long stretches of highway. Produced early on by Capricorn Records producer and Southern rock icon Johnny Sandlin, the band found champions in Billy Joe Shaver and Kris Kristofferson and shared stages with artists including Willie Nelson, Merle Haggard, Billy Joe Shaver, Drive-By Truckers, Robert Earl Keen, Travis Tritt, Junior Brown and Paul Thorn. Now redeemed and back again, The Skeeters carry country, Southern soul, rock and the plainspoken poetry of lived experience into a new chapter - with fresh Alabama recordings and a second album cut at Rancho de la Luna in Joshua Tree, California.
